

Mary Immaculate College & Sacred Heart University COIL project

Spring 2023

COIL Activity 1: Introduction video

For this task you are asked to record a 2-minute video introducing yourself to fellow students at MIC and SHU who are also taking part in the COIL project.

You should begin the video by introducing yourself. Tell us your name, whether you are an MIC or SHU student and what program you are studying. Next, tell us (1) a fun fact or something interesting about your home town or state (USA)/county (Ireland) **or** (2) about a hobby or past-time you enjoy.

Record and post your 2-minute video on the COIL project Moodle page. **The deadline for posting your video is Tuesday February 14th at 2pm (Ireland) and 9am (USA).** The videos that have been recorded by others will become available for you to view when you post your video. All students are encouraged to watch 4 or more videos posted by students who don't attend the same college as you, so if you are a SHU student we encourage you to watch videos posted by MIC students and vice versa. All students should then leave one comment on one other video (for example, you can choose to say hello, tell someone whether you've ever visited their home town or would like to visit, tell someone that you share the same hobby or would be interested in trying the hobby they've talked about). We have provided an example to give you an idea of what's required.
