## Preparing for your Online Interview

---

1. Confirm that your webcam and microphone are suitable and work correctly in your chosen browser (**Google Chrome or Microsoft Edge**) or the MS Teams application. Both need to work as the interviews need to see and hear all applicants.
  2. If you are using a laptop or tablet, please ensure to charge fully.
  3. Test your internet connection to ensure it is reliable and working.
  4. If using headphones, make sure they are connected and working before the interview.
  5. We recommend a test call is carried out in the lead up to the interview to test your connectivity. Microsoft Teams is available for free if you wish to check the technology: **MS Teams Free Edition**
  6. If possible, conduct your interview in a quiet area that is free from distractions.
  7. Again, keep your mobile phone close by if for any reason you need to be contacted or you might be having technical difficulties.
  8. Please join the meeting on time to problem solve and ensure the quality of the connection.
