

**BEd & BEd Psy Yrs. 2 & 3, PME yr.1**  
**Professional Placement 3 & PME Professional Placement 2**  
**Teaching Schedule**  
**April 26<sup>th</sup> – May 21<sup>st</sup> 2021**

The college is very grateful to all teachers for making their class available for an MIC student on this placement, particularly in light of recent school closures.

This below Teaching Schedule reflects our understanding that students will not have the same teaching time with the class this year. The schedule acknowledges that teachers require time with their class throughout the placement. We present this schedule as a flexible schedule and appreciate teachers' assistance to enable the student to teach as much as possible. Students are required to discuss timetabling and topics with the teacher. The student must have taught all curricular subjects by the end of the placement.

Throughout the placement when not teaching the student is observing, consulting, and assisting in the class (with an inclusion/SEN focus in the classroom). Students may teach more lessons, where opportunity exists. Also, while students are not teaching they may assist in teaching & learning initiative in other classes as deemed appropriate by the school.
